spective from which to assess this henotheism of the American way. Neuhaus lifts his readers in a vortex of theological excitement to heavenly heights only to land them back in territory already charted by Norman Podhoretz and Irving Kristol.

In conclusion, *The Naked Public Square* may be a useful book for those seeking to persuade the religious right to be less fanatical. It may also provide a case study in how secular ideologues have converted a Lutheran pastor to a Christ of Culture social ethic.

But if one is looking for studies of religion, politics, and democratic culture, there are many better books to read first. On religious toleration, I would recommend John Murray Cuddihy's *No Offense* and Robert Jewetts' *Christian Tolerance*. On the place of religious belief and morality in democracy, John Courtney Murray's *We Hold These Truths* is yet to be surpassed.

Robert Bellah's *Habits of the Heart*, with its sociological evidence for the corrupting power of liberal individualism, will give a far more accurate representation of the current state of American morals than Neuhaus does. Martin Marty's *The Public Church* will provide a needed counterpoint to Neuhaus's single-minded concern with right-wing evangelicalism, demonstrating the emergence of an ecumenical consensus on social ethical issues. Unfortunately, for its part, *The Naked Public Square* only offers its readers an extraordinary case study of the neo-conservative subversion of Christian faith. •
